Authorization for this examiner's amendment was given in a telephone interview with Stephen Ford on 6-6-2008.

orientation of the holes through which the vacuum is applied along with the alignment of the vacuum member with the other members differentiates the claim from the prior art

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
